

# The Advent of our Secular Worldview

To register: 305-919-5900

## Course

Newton's Law of Universal Gravitation sparked the Enlightenment or Age of Reason. Darwin's theory of evolution exacerbated the schism between science and religion. The inherent randomness of quantum mechanics challenged the notion of a purposeful God. Yet modern scientific evidence for a fine-tuned universe implies the existence of a Higher Power. Join us for a thought-provoking scientific and spiritual exploration.

## Details

Tuesday

October 1

12:30 – 2:00 am

\$10

## Instructor

Mark Egdall is the award-winning author of the popular science book *Einstein Relatively Simple: Our Universe Revealed in Everyday Language*. A retired aerospace program manager, he has been teaching at South Florida lifelong learning programs since 2006.
