

iPhone Series

To register: 305-919-5900

Course

The objective of this course is to learn more specific applications of the iPhone. This class requires that the participants are already familiar with basic concepts of the iPhone. Take one or take them all!

- Creating Photo Collages with the free app “PicCollage”
- Discovering Lists with the “Reminders” app
- Discover and listen Podcasts using the “Podcast” app
- Listening to music using a popular streaming music app (Spotify)

Details

Wednesdays

10/30, 11/6, 11/13,
11/20

10:30 am – 12:00 pm

\$35

(or \$10 each)

Instructor

Mr. Riso is an IT professional with over 35 years of experience. He holds a degree in computer sciences and has worked for several multinational companies. His work as a project manager spans around the world, including countries such as Europe, Asia, Latin America, and the US. After leaving the corporate world, he decided to start sharing his IT knowledge and experience, and transitioned to being a teacher for the adult population. He currently teaches technology-based classes in the Miami area.
