Instructor

Pedro Junior Gonzalez is a seasoned IT professional, with more than fifteen years of experience in the field. He is the owner of The Computer Butler, a company that provides top IT and computer repair services to small business owners in South Florida. Pedro is passionate about technology and believes it has the impact to positively affect people's lives. For this reason, Pedro has volunteered with several organizations and communities throughout his career. Recently, he developed a solar powered computer to help expose underprivileged children in South America to the wonders of technology. Pedro has formally taught C and C++ courses to disabled students at Florida Atlantic University. He holds a bachelor degree of Computer Science from Florida Atlantic University.
